Colour me in.....

Have you been to any of our cook your own tea sessions? How about helping to make tea tonight with your family?

Here are some recipes for inspiration.....

#### **Pizzas**

##### Ingredients

2 plain pizza bases

6 tbsp passata

400g mixed red and yellow tomatoes, sliced

8 green olives, pitted and halved (optional)

150g mozzarella cherries (bocconcini)

2 tbsp fresh pesto

handful fresh basil

##### Method

*Heat the oven to 180C/160C fan/gas 4. Put each pizza base on a baking sheet and spread each with half of the passata. Arrange the tomatoes on the top in rings or wedges of colour and add the broccoli and the olives, if using. Squish the mozzarella cherries (bocconcini) a little before dotting them over the pizzas, then drizzle 1 tbsp pesto over each.*

*Bake for 15-20 mins or until the top is bubbling and just starting to brown a little. Scatter over the basil leaves before serving.*

#### **Orange cheese cake**

##### Ingredients

15 digestive biscuits

6 tbsp butter, melted

400g curd or cream cheese

grated zest 3 oranges, save the segments for the decoration

200g mascarpone cheese

100g caster sugar

3 tbsp milk

184ml pot double cream

##### Method

*Crush the biscuits roughly. You can either do this by putting them in a plastic food bag and crushing them with a wooden spoon or you can crumble them with your fingers.*

*Put the biscuits into a bowl and mix in the melted butter. Put the mixture into a 23cm cheesecake tin and, using your fingers or the back of a spoon to spread it evenly, press it down in the tin to form the base. Put the tin into the fridge to set. This should take about 30 mins.*

*Put the curd or cream cheese, orange zest, mascarpone, sugar and milk into a bowl and mix it well with the wooden spoon.*

*Put the cream in a clean bowl and whisk until it is the consistency of thick custard. Add to the orange mixture and mix thoroughly.*

*Remove the cheesecake tin from the fridge. Pour the filling over the biscuit base and spread evenly. Decorate with segments of orange and return to the fridge until ready to serve (at least 4 hours or overnight).*

##### WATER & FOOD COLOURING

## STEP-BY-STEP

Carefully cut a small hole roughly two thirds up the bottle.

Push the straw through the hole and place Blu Tack around the joint.

Place the bottle in the plastic tray.

Add food colouring to the water and fill the bottle to just below the level of the hole.

Blow up the balloon and hold the end so the air can't escape.

Place the end of the balloon around the mouth of the bottle.

Let go of the neck of the balloon and let the air into the bottle. Watch as the fountain begins to work.

Repeat steps 4-7 but this time with less air in the balloon and see what happens.

## DID YOU KNOW?

Engineers use air pressure to power all sorts of things including the brakes on a bus and a dentist's drill.
